

Job/Role Description

Job Title: Resident Engineer (Structural) 12-storey commercial building – MPAMOT

Employment: Fixed Term Contract for minimum 18 months

Location: Johannesburg

Grade: TBC

1. Introduction

MPAMOT is a multisector consultancy providing engineering, management, and development services on projects. With over 200 of the best people working on a diverse range of challenges, we're helping our clients deliver sustainable infrastructure and development solutions. We have a collegiate and collaborative culture which values equality and diversity, and we take proactive steps to create an inclusive workplace.

We are looking for a Resident Engineer (Structural) with site experience for a 12-storey commercial building.

2. Role Description

The focus of the role will be to:

- Attend regular site progress and technical meetings
- Prepare pro-active estimates of proposed variations for Client and Engineer decision making.
- Assist in the resolution of contractual and financial claims by the contractor
- Arrange for the delivery of all test certificates
- Observe how the works are carried out, examine and test materials and workmanship, and receive from the contractor such information as he shall reasonably require.
- Deliver to the contractor oral or written communications from the Engineer and receive oral or written communications from the contractor to deliver to the Engineer
- Inspect works for conformity to contract documentation
- Witness and review of all tests and mock-ups carried out both on and off site
- Ensure compliance with the requirements of the plans and specifications and review completed work prior to enclosure or on completion as appropriate.
- Constantly review work procedures and construction materials
- Be available to provide the contractor with technical interpretation of the plans and specifications
- Verification of quantities for payment certificates
- Ensure compliance to the latest revision of construction drawings and seek guidance from the design Engineer should a deviation be necessary

3. Candidate Specifications:

- B-Tech Civil / Structural Engineering and membership of a related professional body (Minimum Pr Tech Eng)
- Minimum 5 years' site experience on a full-time basis working on commercial buildings, would be an advantage
- Fully conversant with MS Office packages
- Experience with AutoCAD, Revit, MS Project would be an advantage
- Excellent record keeping and Quality Assurance (QA) experience
- Well organised, with strong planning and management skills
- Excellent interpersonal, communication and report-writing skills
- Proven project management, client liaison and consulting skills

4. Salary:

To be negotiated: Competitive salary on offer

5. Location:

South Africa – Johannesburg
